

- MATERIAL HANDLING
- TRANSFORMER INDUSTRIES
- SUGAR PLANT
 - AGRICULTURE
 - CONSTRUCTION
 - HEAVY FABRICATION
 - AUTOMOBILE

Quality is never an accident it is always the result of intelligent efforts.

INTRODUCTION

Sudarshan Paints & Coatings Started its Operations in 2012 with a policy to supply consistent products on continuous basis with a compatible system meeting the desired specifications & usage conditions specified by the user & suiting the environment in which it is applied / used.

VISION

To be one of the most innovative manufacturer of cost effective, technically Superior & best quality industrial products. Our core values are Honesty, Integrity, Innovation, Passion & continues improvement which leads to satisfy our customers.

MISSION

Our mission is to maintain a customer centric approach by frequently & direct contact to ensure customer satisfaction. We believe our success will come from exceeding customer's expectations & earning their loyalty. We are continuously improved our products & processes so as to keep up with varying needs of the market.

QUICK DRYING PRIMER/ SYN. ENAMEL PRIMER

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Red Oxide Matt Primer	Red Oxide	METAL	General Purpose Primer for Structural Steel.
Zinc Chromate Primer	Red Oxide / Yellow	METAL	Excellent anticorrosive primer for auto bodies, pumps, valves and other fabricated parts.
Zinc Phosphate Primer	Grey / Red Oxide	METAL	All types of ferrous substrate like metal cabinet, grill, steel window, gates, iron pipe, all steel structure

QUICK DRYING PAINTS / SYN. ENAMEL PAINTS

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Synthetic Enamel Paints	White/Black/All IS & RAL Shades	METAL	Finish Coat for Machinery parts, Furniture & Fixtures. It gives excellent glossy finish.
Synthetic Enamel Red Oxide Glossy	Red Oxide	METAL	Excellent anticorrosive general purpose paint suitable for interior & exterior use.
Linseed Oil (Varnish)	Transparent	METAL / WOOD	Lacquer use in wood coating industries, decorative coating, indoor appliances. mostly use on wood, metal & plaster.
Quick Drying Paints (Q.D.)	White/Black/All IS & RAL Shades	METAL	It dries very fast & gives smooth & hard finish.

EPOXY PRIMER

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Epoxy Primer	Red Oxide / Grey	METAL	Excellent Anticorrosive Primer for acid, alkali & solvent resistance
Epoxy Zinc Chromate Primer	Red Oxide / Yellow / Grey	METAL	Use for protection & decoration of steel structure, Pipeline, pharmaceutical industries, chemical plant.
Epoxy Zinc Phosphate Primer	Red Oxide / Grey	METAL / CEMENT	Use for protection & decoration of steel structure, Pipeline, pharmaceutical industries, chemical plant. It is Ideal for protecting interior & exterior Machinery, Tanks and Bridge.
Epoxy Intermediate MIO	Grey / Brown	METAL	Use as a heavy duty intermediate coat for structural steel in chemical industries, fertilizer plant, power plants, petrochemical plants, Pulp & paper mill. Recommended use for offshore environment.
Epoxy Zinc Rich Primer	Grey	METAL	Use as a heavy duty coat for structural steel in fertilizer plant, Water treatment plant, Pipelines, Refineries, Bulk handling equipment, overhead cranes, Power generation industries.

EPOXY PAINTS

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Epoxy Paints	White / Black / IS & RAL Shades	METAL / CEMENT	Use in structural steel work in fertilizer, chemical, refineries, pipelines, storage tanks, Material handling equipment, Conveyor, Heavy fabrication.
Epoxy Coal Tar Black Paint	Black	METAL / CEMENT	Ideally suitable for varied conditions for the protection of all types of metals especially for the substrate which are having marine exposure.

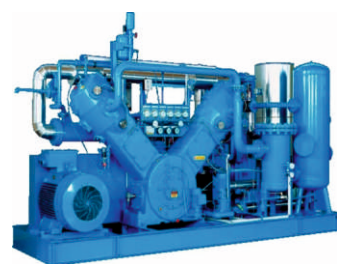

POLYURETHANE PRIMER

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Polyurethane (P.U.) Primer	Grey / Yellow	METAL / CEMENT	Excellent base coat for P.U. system, Adhesion to metal, Cement surface.
2K P.U. FRP Primer	White / Grey	Fiber / Plastic / FRP / Metal / Cement	It is specially formulated for plastic, Fiber, Glass, Cement, ABS ,Metal, FRP, ferrous & nonferrous substrate. Use in Refineries, Petrochemical industries, Fertilizer plant, All type of Chemical industries, Power plant, Transportation industries.
2K P.U. DTG Primer	Grey / Yellow	GI	This primer is specially formulated to direct apply on GI & Aluminum Surface.

POLYURETHANE PAINTS

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
P.U. Paints (Interior - Aromatic)	White / Black IS & RAL Shades	METAL	Excellent water, chemical & solvent resistance. Recommended for interior application.
P.U. Paints (Exterior - Aliphatic)	White / Black IS & RAL Shades	Fiber / Plastic / ABS / Metal / Cement	Excellent Gloss & color retention, Excellent UV resistance.
P.U. Clear Lacqure	Transparent	Fiber / Plastic / ABS / Metal / Cement	Use in automobile industries, car refinishing, protective coating, machineries, outdoor appliances.
2K Aluminium Lacqure - 155	Transparent	Metal / GI / Aluminium	Use in Construction frame, Civil work for better performance in corrosive environment.

HEAT RESISTANT PAINTS

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
H.R. Aluminium Silver Paint	Silver	Metal	Single pack high luster aluminum paint for excellent outdoor conditions.
H.R. 250 °C Paints	Silver / Black	Metal	Single pack black/Silver paint withstand up to 250°C.
H.R. 400 °C Paints	Silver / Black	Metal	Dry heat resistance up to 400°C / Various metal surfaces, Chimneys, Exhaust systems, Vehicle Silencers.
H.R. 600 °C Paints	Silver / Black	Metal	Furnace Equipment's, Reaction vessels, hot pipes, Exhaust systems & similar areas exposed to the heat attack. Withstand up to 600°C / Various metal surfaces, Ovens, Chimneys, Exhaust systems, Vehicle Silencers withstand up to 600°C.
H.R.O. Paints	White / Black Ral & IS Shades	Metal	Dry heat resistance up to 180°C signal pack for metal surfaces.

SPECIALITY COATINGS

PRODUCT	SHADE	SUBSTRATE	RECOMMENDED USE
Wash Primer/ Etch Primer	Yellow	Aluminum, Stainless Steel, Galvanized Iron	2 pack primer for use on non-ferrous substrate such as aluminum, Stainless steel, Galvanized Iron.
Thermoplastic Acrylic Paint	White / Black Ral & IS Shades	Metal / Plastic / ABS	Finish paints specially for Plastic / ABS surface.
1k Alu - Coating Lacure	Transparent	Metal	It is very easy to apply. Mostly use on construction site for protection from corrosion.
Anticorrosive Bitminous Black	Black	Metal	Cheap Anticorrosive paint for steel expose to corrosive industrial & coastal environment.

OUR ESTEEM CLIENTS

SUDARSHAN PAINTS & COATINGS

MFG. ALL TYPES OF INDUSTRIAL PAINTS & THINNER
(An ISO 9001:2015 Certified Company)

📍 Plot No. PAP-G-63/3, Phase-III, MIDC,
Chakan, Village - Kuruli, Tal. Khed,
Dist. Pune - 410 501.
